

# KHC'S FIRST MORTGAGE FUNDING SOURCE QUICK REFERENCE CARD

To **successfully** originate KHC mortgages you should begin with *prequalified* applicants and properties meeting FHA, VA, RHS, or Fannie Mae Conventional guidelines. The applicant (s) must be purchasing or refinancing a single family, one unit, and owner-occupied property, located in Kentucky. Then follow the steps below....

1. The purchase price or refinance amount is at or below:
  - **\$301,294** with Secondary Market
  - **\$271,164** with KHC's Homebuyer Tax Credit (purchase only)
  
2. The applicant (s) meet KHC's simple **credit overlays**:
  - **660** credit score for Conventional
  - **620** credit score for FHA, VA, and RHS
  - Max ratio caps for all loans of **40/50%**
  - **AUS Approval** required except on RHS
  
3. All loans should be **Secondary Market funding**. If a homebuyer tax credit is associated with the Secondary Market loan through KHC then follow the more restrictive tax credit (MCC) guidelines.
