

**Kentucky Continuum of Care  
2008 Homeless Point-in-Time  
Demographic Fact Sheet**

<b>Description</b>	<b>Definition</b>
Total Surveys Received – includes precariously housed duplicates, etc.	This number reflects all surveys received for a specific area. Not all surveys translate directly to homeless persons as defined by HUD. Some may be at risk of homelessness but not yet homeless. Some may not meet any criteria to be counted as homeless or at risk of becoming homeless. Some surveys may duplicate other surveys and are therefore eliminated from the count.
<b>GENDER</b>	<p>This number reflects the gender and race category chosen by the person who completed the survey. These persons are head of household for those surveys that qualified as “homeless” under HUD’s definition. Some persons choose not to answer this question. This number may not equal the total homeless households if a survey respondent chooses not to answer this question.</p> <p>This number does not include persons who are precariously housed or at risk of becoming homeless.</p> <p>The homeless survey does not capture gender, age and race of all household members – only the head of household.</p>

• Men	
• Transgender	
<b>RACE</b>	
• African-American	
• American Indian/Alaskan Native	
• Asian

<b>TRANSIENT HOMELESS</b> – became homeless elsewhere	This category includes only the head of “homeless” households. Not all households answer these questions or provide an affirmative answer.
• Became homeless in Lexington	<p>These categories may not apply to all homeless heads of household.</p>
• Became homeless in Louisville	
• Became homeless elsewhere in Kentucky	
Chronically Homeless (includes emergency sheltered and unsheltered)

Chronic Substance Abuse
