

# Kentucky Rents

Kentucky Rents is the easy and *free* way to advertise or find rental properties online! Users can visit [www.kyrents.org](http://www.kyrents.org) and browse hundreds of available houses and apartments throughout Kentucky at the touch of a button.

A study by the National Low Income Housing Coalition shows that affordable housing is becoming increasingly difficult to find. In Kentucky, a person earning minimum wage would have to work 80 hours per week in order to afford the typical two-bedroom apartment.

Kentucky Housing Corporation is committed to creating affordable housing opportunities for Kentuckians, and Kentucky Rents was created to help potential renters find affordable housing in their communities. However, there are no rent or income limitations to use this service. Kentucky Rents is provided as a service to all Kentuckians and is completely free for both property owners/landlords and potential renters.

## Kentucky Rents lets you:

- View photographs and descriptions of hundreds of properties in Kentucky.
- Search units by county, price range, and size of unit.
- Obtain directions to the property and view a map of the surrounding area.
- See nearby community resources such as schools, grocery stores, and public transportation.
- Filter your searches to display only elderly, handicapped accessible, or Section 8 housing.
- Review management policies and requirements, such as move-in costs and pet policies.

The site also allows property owners and landlords to advertise their vacant units. Just click on "Register with Kentucky Rents. It's FREE!" at the bottom of any page to create an account.
