

Volunteers Needed!

On Thursday, January 27, 2011, from 12:00 midnight to 11:59 p.m., volunteers from across the state will count the homeless in Kentucky. This count is very important because it will help determine how much funding will be available for homeless assistance in the state.

With your help, we can collect data that will ultimately help end homelessness in Kentucky, helping thousands find affordable housing and saving taxpayer money currently spent on homeless resources, such as government-funded temporary housing.

will conduct an orientation for any volunteers interested in helping with the 2011 homeless count. You will learn about a volunteer's basic duties, point-in-time count method, how to approach an individual, and how to obtain necessary information for the count.

HOMELESS COUNT ORIENTATION

Please contact :

to register or to obtain more information if not able to attend the orientation.
