INDEPENDENT AUDITOR'S REPORT

Board of Directors Kentucky Housing Corporation Frankfort, Kentucky

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the Kentucky Housing Corporation (the "Corporation"), a component unit of the Commonwealth of Kentucky, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Corporation's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the Corporation, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 14, the schedule of Corporation's proportionate share of the net pension liability on page 52, the schedule of Corporation's employer pension contributions on page 53, the schedule of the Corporation's proportionate share of the net OPEB liability on page 54, and the schedule of the Corporation's employer OPEB contributions on page 55 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Corporation's basic financial statements. The combining financial statements on pages 56 through 59 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Report on Other Legal and Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued our report dated September 30, 2020 on our consideration of the Corporation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Corporation's internal control over financial reporting and compliance.

Louisville, Kentucky September 30, 2020

Management's discussion and analysis of Kentucky Housing Corporation's ("Corporation") financial performance provides an overview of the Corporation's financial activities for the fiscal year ended June 30, 2020. It should be read in conjunction with the Corporation's financial statements.

Financial Highlights

- Company-wide net position increased \$37.4 million, resulting from an increase in net position attributable to the Corporation's business-type activities of \$38.9 million offset by a decrease of \$1.5 million attributable to the Corporation's governmental activities.
- The Corporation's single-family loan portfolio increased by \$133.3 million during fiscal 2020 providing the Corporation with a steady source of operating revenue. Total loans serviced for others increased to \$2.440 billion at June 30, 2020, an increase of \$253.0 million from the prior year and now accounts for 86% of total single-family loan servicing. Consistent with recent year strategies, since nearly all the Corporation's loan production was delivered into the secondary market, total loans within the indenture, including mortgage-backed securities, decreased by \$117.2 million to \$328.1 million.
- Single family loan originations for the year totaled \$534.0 million, a decrease of \$63.7 million from the prior year's record production level. With nearly all originations being delivered into the secondary market, the Corporation realized record net cash trading gains in excess of \$23.1 million, a \$5.5 million increase over the prior year, and fee income totaling \$1.7 million, a slight reduction due to the decreased production levels.
- Consistent with the requirements of government accounting standards dealing with pensions and other post-employment benefits costs, the Corporation recognized such expenses totaling \$9.9 million in fiscal 2020, a sizable decrease of \$7.5 million from the prior year. Other expenses also include a \$2.0 million provision for estimated increased loan related losses attributable to the COVID-19 pandemic and loan forbearance provisions of stimulus passed by Congress. Expenses other than the foregoing increased primarily in the area of computer operations and programming, some of which was also incurred as operations adjusted from on site to remote due to the pandemic.
- Overall, the Corporation increased proprietary operating income \$10.9 million (when measured before changes in fair value of marketable securities), which in addition to the impacts of the above discussions, resulted primarily from an increase of \$0.9 million in fees primarily from loan servicing fees and a decrease of \$1.0 million in net interest margin.

Overview of the Financial Statements

The financial statements consist of five parts – this management's discussion and analysis, the basic financial statements, the notes to the financial statements, supplementary pension and other postemployment benefit ("OPEB") schedules and supplementary combining information. The basic financial statements include two different series of statements that present the Corporation's financial position and performance.

Corporation-wide financial statements consist of a Statement of Net Position and a Statement of Activities. These statements display information about the Corporation as a whole and are presented using the economic resources measurement focus and the accrual basis of accounting as used by private-sector businesses. Activities of the Corporation are distinguished as being either "governmental" or "business-type" activities.

- Fund financial statements report additional and detailed information about the Corporation. Governmental activities are reported under Governmental Funds financial statements. These statements consist of a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Net Position. Governmental Funds statements are presented using the current financial resources measurement focus and the modified accrual basis of accounting used predominately in the public-sector.
- Business-type activities are reported under Proprietary Funds financial statements. These statements consist of a Statement of Fund Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position and a Statement of Cash Flows. Proprietary Funds statements are also presented using the economic resources measurement focus and the accrual basis of accounting.

Corporation-Wide Financial Statements – Pages 15 and 16

The Corporation was created by state statute in 1972 as a de jure municipal corporation and political subdivision of the Commonwealth of Kentucky. The Corporation was created to serve a public purpose by increasing the supply of safe, decent and affordable residential housing.

The Corporation operates a number of programs consistent with the mandate to promote affordable residential housing. Several programs are identified within the financial statements as governmental type activities because they are financed with intergovernmental revenues. Significant governmental activities financed by the federal government include the Department of Housing and Urban Development's ("HUD") Home Investment Partnerships Program ("HOME"), HUD's Section 8 Rental Assistance programs ("Rental Assistance"), the Department of Energy's Weatherization Assistance ("Weatherization") program and the U.S. Treasury's Hardest Hit Fund program ("Hardest Hit Fund"). The Affordable Housing Trust Fund, which provides assistance to very-low income persons in meeting their basic housing needs, is funded by a portion of the fees received by County Clerks for recording and indexing various documents. Other governmental activities are funded by the Commonwealth of Kentucky.

The Corporation also operates a number of programs that are identified as business-type activities. These activities include providing financing with favorable terms to qualified homebuyers and developers of affordable rental housing; servicing single-family and multifamily loan portfolios; and administering the Federal Low Income Housing Tax Credit program.

The Corporation-wide financial statements separately present the governmental and business-type activities of the Corporation. The nature of the Corporation's governmental activities is such that substantially all funds flow through the Corporation to ultimate program recipients. As a result, the Balance Sheet related to governmental activities shows a relatively small amount of assets, representing monies received by the Corporation but unexpended for each respective program's purpose. Conversely, the business-type activities of the Corporation create the vast majority of the Corporation's assets, liabilities and net position as reflected in the Statement of Net Position. The overall financial condition of the Corporation can thus be best evaluated through the analysis in the Proprietary Funds section in pages 9-12 of the MD&A and under the Proprietary Funds' financial statements on pages 21-25.

The Statement of Activities shows the financial performance of each significant governmental and business-type activity operated by the Corporation over the past year. The revenues and expenses associated with each activity are shown as well as a net amount showing whether revenues exceeded expenses. The net revenue of all governmental activities (after transfers) results in an increase (decrease) in the fund net position that is to be expended for program purposes. The net revenue of all business-type activities results in an increase in the Fund Net Position of the Corporation. The Corporation's overall net position increased by \$37.5 million for the year ended June 30, 2020. Table 1 shows condensed financial information from the Statement of Net Position:

Table 1 Statement of Net Position (in millions)

	Governmental Activities		Business-Type Activities				Total Corporation					
)20		2019	_	2020		2019	_	2020		2019
					_		_					
Current assets	\$	27.7	\$	28.4	\$	258.2	\$	223.0	\$	285.9	\$	251.4
Non-current assets		_				597.7		728.7		597.7		728.7
Total Assets		27.7		28.4		855.9		951.7		883.6		980.1
Total Deferred Outflows of Resources		3.5		4.4		9.2		11.6		12.7		16.0
Current liabilities		9.2		9.3		118.2		136.6		127.4		145.9
Non-current liabilities		32.2		35.1		372.7		498.9		404.9		534.0
Total Liabilities		41.4		44.4		490.9		635.5		532.3		679.9
Total Deferred Inflows of Resources		3.7	-	.8		9.4		2.0		13.1		2.8
Net Position:												
Invested in capital assets		-		-		3.6		3.4		3.6		3.4
Restricted		18.5		19.1		254.4		244.4		272.9		263.5
Unrestricted		(32.4)		(31.5)		106.8		78.0		74.4		46.5
Net Position	\$	(13.9)	\$	(12.4)	\$	364.8	\$	325.8	\$	350.9	\$	313.4

The net position of the governmental activities decreased from (\$12.4 million) to (\$13.9 million). All assets of the Corporation's governmental activities are externally restricted for program purposes. Total assets subject to immediate disbursement are reflected as current liabilities and remaining assets are reflected as restricted net position. The decrease in net position indicates that revenues received from governmental activities did not exceed program grants, operating expenditures and transfers. The unrestricted net position of (\$32.4 million) represents claims against program administrative revenues not yet received, and impact of the proportionate share of the net pension and OPEB liabilities.

The net position of the Corporation's business-type activities increased from \$325.8 million to \$364.8 million as a result of total revenues of \$90.4 million, total program expenses of \$54.6 million, and transfers in from government operations of \$3.2 million, for a net increase in net position of business-type activities of \$39.0 million. Comparisons in the changes in net position between fiscal years 2020 and 2019 provide additional insight on the Corporation's operating performance. Table 2 shows condensed Statement of Activities financial information.

Other loan and housing								
credit programs	-	-	20.8	21.0	20.8	21.0		
Total Program Expenses	208.5	216.9	54.6	64.8	263.1	281.7		
Excess before transfers	1.7	(8.0)	35.8	29.2	37.5	21.2		
Interfund transfers in (out)	(3.2)	(3.6)	3.2	3.6				
Increase (Decrease) in Net Position	\$ (1.5)	\$ (11.6)	\$ 39.0	\$ 32.8	\$ 37.5	\$ 21.2		

Total revenues for governmental activities were \$210.2 million during fiscal year 2020, a \$1.3 million increase from the \$208.9 million in revenues in fiscal year 2019. The increase was due to a \$1.1 million increase in operating grants and a \$.2 million increase in charges for services. Fiscal year 2020 operating grants include federal funding for Rental Assistance of \$162.1 million, HOME of \$10.1 million, Hardest Hit Fund of \$1.6 million and Weatherization of \$4.1 million, which represent 89% of total operating grant revenues.

The Corporation receives fees or charges for services for federal program administration. These revenues increased from \$10.1 million in 2019 to \$10.3 million during fiscal year 2020. A substantial amount of the fees earned in excess of operating costs are transferred from the governmental funds to the proprietary funds of the Corporation. During 2020, \$10.3 million in fee revenue was received and \$7.1 million in operating expenses were incurred thereby enabling a \$3.2 million transfer, a \$.4 million decrease from the \$3.6 million transferred in 2019.

Program expenses for governmental activities decreased during 2020 by \$8.4 million. Program expenses for governmental activities during 2020 were \$208.5 million, comprised of grants of \$200.4 million and operating expenses of \$8.1 million. In fiscal 2019, total program expenses were \$216.9 million with grants of \$207.4 million and operating expenses of \$9.5 million.

Total revenues for business-type activities were \$90.4 million during fiscal year 2020, a \$3.6 million decrease from the \$94.0 million of revenues in fiscal year 2019. For fiscal 2020, gross gains on the sale of loans held for sale increased \$4.4 million, interest earnings from loans, mortgage-backed securities and other investments decreased \$4.5 million, fees, charges and other income increased \$.8 million and the change in fair value of securities decreased \$4.3 million.

Program expenses for business-type activities decreased \$10.2 million from \$64.8 million in 2019 to \$54.6 million in 2020. Bond financed loan program expenses decreased by \$8.0 million, administrative expenses, or expenses not directly attributable to programs decreased by \$3.3 million, loan servicing expenses increased by \$1.3 million and other loan program expenses decreased by \$.2 million. The line items related to these expenses are presented in detail in Table 2.

The excess of revenues over expenses for business-type activities was \$35.8 million in 2020 compared to \$29.2 million in 2019, an increase of \$6.6 million. As described above and in additional detail under "Proprietary Funds," the increase is due to a \$3.6 million decrease in revenues and a \$10.2 million decrease in expenses. Transfers-in were \$3.2 million in 2020, a \$.4 million decrease from 2019. Such changes in revenues, expenses and transfers resulted in an increase in business-type activities change in net position of \$6.2 million.

Fund Financial Statements

The following section provides information on the Corporation's fund financial statements.

Governmental Funds - Pages 17 through 20

Each of the columns presented in the governmental funds financial statements represents an independent program operated by the Corporation. A description of each program can be found under Note A of the "Notes to Financial Statements." Other Housing Funds include several independent programs, each of which does not meet the criteria for separate financial reporting.

The current assets of each governmental fund are held pending disbursement for program purposes. Most program disbursements are in the form of a grant or subsidy to program recipients. However, certain disbursements under the Affordable Housing Trust Fund, the HOME Program and the Treasury Housing Credit program are in the form of loans. Because of the extended loan terms, minimal interest rates and the credit risks associated with these loans, loan loss provisions have been established at 100%. As of June 30, 2020, the Corporation retained \$27.7 million of total assets for program purposes and had \$9.2 million reflected as program liabilities resulting in a total of \$18.5 million reflected as restricted fund balances for program purposes.

During fiscal year 2020, the Affordable Housing Trust Fund had revenues greater than expended funds of \$.6 million, thereby increasing the program's fund net position. Rental Assistance revenues of \$169.6 million were expended for programs and \$3.2 million was transferred to the proprietary funds. Similarly, all HOME program revenues, \$11.2 million, were expensed in an equal amount in 2020, as were Weatherization revenues of \$4.6 million. Revenues of the Hardest Hit Fund program exceeded expenses by \$.2 million, thereby increasing the fund net position of the Hardest Hit Fund. Finally, Other Housing Funds expenses exceeded revenues by \$1.4 million, thereby decreasing the fund net position of Other Housing Funds.

Proprietary Funds – Pages 21 through 25

A significant portion of the Corporation's financial resources and activities is reported in the proprietary fund financial statements. Proprietary funds account for approximately 97% of corporate assets, 90% of nongrant revenues, 87% of operating expenses and 100% of the Corporation's unrestricted net position.

Proprietary funds are organized in accordance with the restrictions described under Note B of the "Notes to Financial Statements." The discussion and analysis of proprietary funds will focus on the combined totals of the three separate funds. Primary attention, however, will be given to the financial condition and performance of the Housing Revenue Bond Funds which comprise 65% of the total assets, 30% of total revenues, and 67% of the fund net position of proprietary fund combined totals.

The Corporation's primary business-type activity involves the production and/or sale of single-family mortgage loans. This objective is achieved through the Corporation's Housing Revenue Bond program or the Secondary Market Mortgage Purchase program.

Historically, the Corporation has issued mortgage revenue bonds to fund qualifying residential single-family and multi-family mortgage loans. The federal tax code, with certain exceptions, limits the allowable spread between the Corporation's cost of funds and the interest rate charged to borrowers to 1.125%. This spread allows the Corporation to cover operating costs, including servicing costs, of the Housing Finance Program.

Since 2012, most of the Corporation's single-family mortgage loan production has been through the Secondary Market Mortgage Purchase program. This program allows the Corporation to fund mortgage loans outside the bond indenture at more competitive market rates with the intent of selling the mortgages to secondary market investors. Through this program, the Corporation agrees to purchase various mortgage loans from its lender partners. In the case of agency insured/guaranteed loans, the mortgages are pooled into mortgage-backed securities issued by the Government National Mortgage Association ("GNMA") which are then sold on the secondary market. Beginning in fiscal year 2013, the Corporation also began funding uninsured and, to a much smaller extent, insured conventional loans for sale on a whole loan basis to Fannie Mae. These loans are subject to a brief period during which they are sold with recourse back to the Corporation, after which they revert to full recourse to Fannie Mae. Loans sold pursuant to the Secondary Market Mortgage Purchase program are sold with servicing retained by the Corporation.

Condensed financial information from the Statement of Net Position follows in Table 3.

Table 3 Proprietary Funds Statement of Net Position (in millions)

	2020	2019	Cł	nange
Program-Purpose Assets:				
Mortgage loans and real estate owned	\$ 461.0	\$ 511.8	\$	(50.8)
Mortgage-backed securities	56.0	80.1		(24.1)
Housing construction loans	2.7	1.2		1.5
Other loans	4.3	5.3		(1.0)
Total Program-Purpose Assets	524.0	598.4		(74.4)
Cash and Investments	275.2	294.2		(19.0)
Loans held for sale	42.7	44.5		(1.8)
Other assets	14.0	14.6		(0.6)
Total Assets	855.9	951.7		(95.8)
Total Deferred Outflows of Resources	9.2	11.6		(2.4)
Bonds payable	289.6	416.5		(126.9)
Net pension and OPEB liabilities	82.8	90.3		(7.5)
Other liabilities	118.5	128.7		(10.2)
Total Liabilities	490.9	635.5		(144.6)
Total Deferred Inflows of Resources	9.4	2.0		7.4
Fund Net Position	\$ 364.8	\$ 325.8	\$	39.0

Total program-purpose assets at June 30, 2020 were \$524.0 million. Mortgage loans, mortgage-backed securities, housing construction loans and other loans decreased by \$74.4 million or 12% during 2020. The decrease was the result of program loan fundings of \$50.3 million, program loan repayments of \$99.5 million, an allowance for loan loss increase of \$.8 million, an accrued program loan interest decrease of \$.3 million, plus net decreases in mortgage-backed securities, of \$24.1 million, resulting from sales of mortgage-backed securities of \$53.2 million, purchases of mortgage-backed securities of \$35 million, normal amortization and changes in fair values netting to \$5.9 million. This decrease in program assets reflects the Corporation's continued delivery of single-family loan originations into the secondary market.

The Debt Service Reserve Fund maintains deposits to provide additional security and a source of liquidity to bond investors. Deposits must be maintained at the level required under the Corporation's bond indenture. At June 30, 2020, the Debt Service Reserve requirement was \$47.9 million and the amount on deposit was \$175.2 million. (The Housing Revenue Bond Resolution ("Resolution") requires that the amounts on deposit be valued at the lesser of par or fair value and inclusive of any interest or gain realized to the valuation date.) The Corporation has designated approximately \$65 million of the remaining \$130.4 million in excess reserves for purposes of providing self-liquidity for certain of the Corporation's variable rate bonds, thereby saving the cost of paying outside liquidity providers.

During 2020, the Corporation incurred line of credit borrowings in the amount of \$309.2 million. Total bond and line-of-credit principal repayments were \$456.7 million and the change in net unamortized bond premium was \$.5 million. As a result of this activity, bonds outstanding decreased \$126.9 million and short-term debt decreased by \$21.1 million. The Corporation's Housing Revenue Bond Indenture is rated AAA by Standard & Poor's with a stable outlook and is rated Aaa by Moody's with a stable outlook.

The following Table 4 provides condensed financial information from the Statement of Revenues, Expenses and Changes in Fund Net Position.

Table 4

General and administrative	25.9	29.9		(4.0)
Loan origination costs	13.2	14.9		(1.7)
Other expenses	2.2	2.4		(0.2)
Total operating expenses	54.6	64.8		(10.2)
Operating income (loss)	35.8	29.2		6.6
Interfund transfers in	 3.2	 3.6		(0.4)
Changes in Fund Net Position	\$ 39.0	\$ 32.8	\$	6.2

The change in fund net position increased by \$6.2 million in 2020, compared to a \$17.8 million increase for 2019. The \$6.2 million increase is attributable to several factors. Interest income on loans, mortgage-backed securities and marketable securities decreased \$4.5 million, from \$35.5 million in 2019 to \$31.0 million in 2020. Gains on sales of loans held for sale increased \$4.4 million, from \$33.7 million in 2019 to \$38.1 million in 2020. The change in fair value of investment securities decreased by \$4.3 million, from \$7.7 million in 2019 to \$3.4 million in 2020. Fees, charges and other income increased \$.8 million, from \$17.1 million in 2019 to \$17.9 million in 2020.

Interest expense on revenue bonds and lines of credit decreased \$3.5 million, from \$15.4 million in 2019 to \$11.9 million in 2020. The provision for loan losses decreased \$.8 million, from \$2.2 million in 2019 to \$1.4 million in 2020. General and administrative expenses decreased \$4.0 million, from \$29.9 million in 2019 to \$25.9 million in 2020. Loan origination costs decreased \$1.7 million, from \$14.9 million in 2019 to \$13.2 million in 2020.

Also, other expenses, including grants, loan servicing expenses and the expensing of debt issuance costs, decreased \$.2 million, from \$2.4 million in 2019 to \$2.2 million in 2020.

Finally, changes in fund net position were impacted by interfund transfers of \$3.2 million, a \$.4 million decrease from transfers of \$3.6 million in 2019. (See "Governmental Funds" for additional information on interfund transfers.)

Financial Outlook

The COVID-19 pandemic has caused incredible challenges to the nation's; indeed the world's, health and well-being and the resulting economic and social repercussions are on a scale not experienced in generations. It is unclear whether fiscal and monetary initiatives will be successful in reducing the impact sufficiently to prevent worldwide recession or depression. The Corporation has been tasked with providing relief to many Kentuckians who have been adversely affected by the pandemic, ranging from increased rental assistance to increased homelessness prevention to loan forbearance. Significant funding has been provided by numerous federal relief initiatives for both the direct relief to those impacted and for the administrative costs of managing the process. Years of prudent resource management and preservation has assisted the Corporation in its response to the pandemic. Management believes the Corporation has sufficient expertise and liquidity to deliver the assistance necessary to weather this emergency, though clearly many uncertainties remain. The personal safety of our employees remains paramount. Most staff will continue to work remotely until such time as operating from the Corporation's campus can be more safely resumed.

Though recent developments at the national level are clearly pandemic-related, Corporation management remains watchful for developments, including the Presidential election, that could foreshadow substantial shifts in national housing policies and finance initiatives, or substantive changes in the roles of Fannie Mae and Freddie Mac, which could necessitate significant adjustments in the Corporation's delivery of safe affordable housing and financing. Similarly, management is monitoring possible legislative or regulatory changes that may impact the Corporation's ability to fulfill its mission to the citizens of the Commonwealth and will be working with its national trade group and others to both mitigate negative impacts and support positive impacts of such changes. Though there has been some modest activity in the status of the Project Based Contract Administration contract with HUD, there is not yet a long-term solution to this vital program. The loss of, or significant negative changes to the financial opportunities of this contract, would have a negative impact on the Corporation's operating results.

As has been the case for the past several years, a single immediate financial issue facing the Corporation remains the underfunded status of and resultant future contributions to both the Corporation's pension plan and the Corporation's post-employment medical premium benefits plan. See Note K for a discussion of the Corporation's participation in these state plans. Eliminating the Corporation's portion of the underfunded condition of these plans will require decades of cash infusions, depriving the Corporation of significant resources. In July 2019, the Kentucky General Assembly, meeting in special session, passed legislation designed to provide funding alternatives to many plan participants, of which Kentucky Housing Corporation is one. The legislation provides for several options to withdraw from participating in Kentucky Retirement Systems (KRS), as well as an option to remain a participant of KRS. Due to COVID-19 pandemic conditions the Kentucky General Assembly delayed by one year the date by which the Corporation must make its decision. As such, management will be evaluating these options during fiscal 2021 to determine the most advantageous course of action, from a corporate financial, as well as, employee welfare standpoint and will be making recommendations to the Board of Directors. For fiscal 2021, budget legislation also provides for another one-year reduction in what was scheduled to be a significant increase in the Corporation's funding contribution rate, which will remain at 49.47%. While management considers the appropriate response to these challenges, it is committed, despite the magnitude of unfunded liabilities, to both generating sufficient resources to continue the Corporation's important role in providing affordable housing and preserving the necessary resources to fund the obligations.

Prevailing low interest rates, again largely an impact of the pandemic, create both opportunities and challenges. The costs of the Corporation's variable rate bonds are at historic lows, thereby improving interest margins in the indenture, but low rates also limit the earning power of the Corporation's investable funds. Low rates have also made homeownership in general more affordable and stimulated significant numbers of loan payoffs due to refinancing which result in erosion of the Corporation's loan servicing revenue stream, but which do not necessarily create corresponding increases in the number of first-time homebuyers, the population the Corporation serves. The current rate environment and the possibility of changes in borrower behavior reminds management to monitor conditions continuously and react quickly and appropriately to protect Corporate resources. Management, in concert with the Corporation's financial partners, continually considers strategies to take maximum advantage of market conditions.

Management continues to believe that given the current interest rate environment and market execution of the Corporation's sales of single-family loans into the secondary market, that utilizing the Secondary Market Mortgage Purchase program will be the primary funding source for single-family loans for the immediate future. As such, the bond indenture portfolio continues to shrink resulting in decreasing net interest income. Corporation management, as it has in the past, will continue to take advantage of bond refunding and other interest rate management techniques to maximize net interest income from the indenture portfolio, recognizing that the net income generated by that portfolio will continue to decrease and be replaced by secondary market trading gains, loan servicing income and the investment of cash generated therefrom.

The Corporation's historic concentration on U.S. Government insured/guaranteed and conventional insured mortgage loan production, coupled with conservative investment requirements, limit the Corporation's exposure to default risk. Most of the Corporation's investment in Fannie Mae servicing is with recourse to Fannie Mae and there is minimal underlying default risk associated with loans backing the Corporation's GNMA mortgage-backed securities investments and servicing. With the recent uptick in default rates, primarily the result of the pandemic, the Corporation may experience loss rates greater than in recent years. Management is mindful that other unexpected economic disruptions could subject the Corporation to increased losses. Indeed, nearly 65% of the Corporation's loans in the single-family portfolios, both serviced for others and owned, are less than four years old and have not been through a recessionary economy. Additional information on the Corporation's single-family portfolio, mortgage-backed securities investment, allowance for loan losses and loan servicing can be found in Notes C, D, E and F in the "Notes to Financial Statements."

Though many first-time homebuyers can afford the monthly payment necessary to finance a home purchase, many do not have sufficient funds to afford the down payment. With almost all the Corporation's single-family loan originations now possible only with Corporation supplied down payment assistance, changes in the competitive environment regarding such assistance, or availability of sufficient funding sources, may impact future loan volumes and pricing. Finding available sources of funding and developing effective designs of down-payment assistance that are both financially advantageous and beneficial to the borrower will continue to be a top priority for the next several years.

The Corporation has maintained its dedicated effort to increase its presence in the multi-family housing market with the aim to more effectively deploy available resources, including low income housing tax credits and conduit bond techniques, to maximize the number of families impacted, both with new construction and preservation of existing properties. Participation in these efforts continues to increase, benefitting both the families served and generating income opportunities, as these initiatives have been favorably received by our housing partners throughout the Commonwealth. Increasing the number of affordable multi-family housing units is a natural complement to the Corporation's history of providing single-family financing and helps stretch our mission dollar to reach the maximum number of the Commonwealth's population in need.

Consistent with its mission, the Corporation continues to serve Kentuckians seeking safe affordable housing options, whether those options are single-family home financing opportunities, rental assistance, multifamily housing initiatives, finding safe shelter/housing for Kentucky's special needs citizens or especially in today's troubled times being ready to assist in delivering much needed aid to those adversely impacted by the pandemic. The Corporation has served the Commonwealth for over 45 years through numerous economic cycles by respecting the necessity for prudent resource management and will be here for years to come; this long-term commitment is how the Corporation maintains its position as Kentucky's affordable housing leader.

Contacting the Corporation's Financial Management

This report is designed to provide our stakeholders with the information needed to understand the Corporation's financial condition and results of operations for the fiscal year ended June 30, 2020. Inquiries may be directed to James F. Statler, Chief Financial Officer at Kentucky Housing Corporation, 1231 Louisville Road, Frankfort, Kentucky 40601. Telephone: (502) 564-7630, x286, fax: (502) 564-7322, e-mail: jstatler@kyhousing.org.

KENTUCKY HOUSING CORPORATION NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2020

(Dollars in thousands)

Note A--Compliance with Enabling Legislation and Bond Resolutions

The Kentucky Housing Corporation (the "Corporation") was established in 1972 by the Kentucky General Assembly under the provisions of the Kentucky Housing Corporation Act (the "Act"). The Act, as amended, authorizes the Corporation to issue bonds and notes, the cumulative outstanding indebtedness of which does not exceed \$5,000,000. The Act and the Bond Resolutions adopted by the Corporation contain provisions establishing funds and accounts for the segregation and restriction of assets and also restrict the use of the proceeds of bonds as well as other funds received. Further, the Act and the Bond Resolutions authorize the Corporation to invest in obligations of the United States, the Commonwealth of Kentucky (the "Commonwealth"), or their agencies or instrumentalities. The Corporation is a component unit of the Commonwealth and, as such, its financial statements are included in the Commonwealth's Comprehensive Annual Financial Report.

The Corporation primarily makes first mortgage loans to finance single-family and multi-family housing units within Kentucky. Single-family loans are made primarily to first-time home buyers meeting certain low-to-moderate income guidelines. Substantially all assets are held by banks as trustees and are pledged as collateral for the Corporation's bonds. The Corporation also administers various programs for federal and state agencies. Funds held for these programs are restricted as to use by statutes, contracts or other agreements.

Note B--Summary of Significant Accounting Policies

Basis of Presentation: The Corporation's financial statements are prepared in accordance with Governmental Accounting Standards Board ("GASB") Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis – for State and Local Governments and related statements, and are comprised of three components: 1) Corporation-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The Corporation-wide financial statements are comprised of a statement of net position and a statement of activities. Prepared using the economic resources measurement focus and the accrual basis of accounting, these statements reflect all of the assets, liabilities, revenues, expenses, deferred inflows, deferred outflows, gains and losses of governmental and business-type activities. The governmental activities reflect the administration of the various programs for the Commonwealth and the federal government. The business-type activities include single and multifamily loan programs and other lender services. The Corporation follows GASB pronouncements as codified under GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements.

The Corporation's fund financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to governmental entities, which provide that accounting systems be organized by funds to account for specific activities consistent with legal and operating requirements.

Governmental Funds: The governmental funds financial statements are prepared utilizing the current financial economic resources measurement focus and the modified accrual basis of accounting and include the activities of administering rental subsidy and other federal and state housing programs for the Commonwealth and HUD. Revenues considered susceptible to accrual are those revenues that are both measurable and available, usually grant revenue. In substance, "available" means that the item is a resource that can be used to finance the governmental operations within a 60-day period. Each governmental fund is considered a major fund.

Year Ended June 30, 2020 (Dollars in thousands)

Note B--Summary of Significant Accounting Policies (Continued)

The Corporation's governmental funds (special revenue funds) are:

Affordable Housing Trust Fund: This fund accounts for resources made available in the form of grants or loans to local governments, nonprofits and regional or statewide housing assistance organizations to provide housing to very low-income Kentucky residents with critical housing needs. The fund's resources are primarily provided by a portion of the fees received by county clerks for recording and indexing various documents. Such allocation of resources was approved by the Kentucky General Assembly in 2006.

HOME Program: This fund accounts for resources made available from the federal government through its Home Investment Partnerships Program ("HOME") to help local governments, nonprofits, private developers, community housing development organizations and individuals to provide safe, decent and affordable housing. Resources are made available to these entities and individuals through both grants and loans.

Treasury Housing Credit: This fund accounts for resources made available through the United States Department of Treasury ("Treasury") via Section 1602 of the American Recovery and Reinvestment Act of 2009. Under Section 1602 the Treasury issued cash assistance to state housing credit agencies in exchange for low income housing tax credits initially allocated in 2008 and 2009. These resources are secured by deferred, forgivable at maturity mortgage loans.

Weatherization Assistance: This fund accounts for resources made available from the federal government to assist eligible individuals in reducing their utility costs by improving the energy efficiency of their homes.

Rental Assistance: This fund accounts for resources made available from the federal government to assist eligible individuals to rent decent, safe and affordable housing and to assure that property owners provide safe, affordable housing to recipients according to guidelines established by HUD.

Hardest Hit Fund: This fund accounts for resources made available from the U.S. Treasury to assist Kentucky homeowners. The Unemployment Bridge Program assists Kentucky homeowners who have lost their jobs or suffered a reduction in income to keep their homes. The Hardest Hit Fund Down Payment Assistant Program provides down payment assistance to qualified borrowers to purchase a primary residence in targeted counties in Kentucky. Under both of these programs, the proceeds are loaned to eligible homeowners and are secured by a five-year forgivable lien on the recipient's home. The program funds are available to all lenders and all borrowers who meet the program criteria. The fund balance of both programs is restricted for use only by these programs and if any fund balance exists at the end of the programs' duration such balance will be returned to the U.S. Treasury.

Other Housing Funds: These funds account for other minor housing assistance program funds made available through various federal and state resources.

KENTUCKY HOUSING CORPORATION NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2020

(Dollars in thousands)

Note B--Summary of Significant Accounting Policies (Continued)

Proprietary Funds: Financial activities operated similarly to private business enterprises and financed through fees and charges assessed primarily to users of the loan and other lender services are presented as proprietary funds. Each proprietary fund is considered a major fund. The Corporation's proprietary funds are:

General Funds: These funds account for proprietary fund (1) activities related to the development and administration of corporate financial programs, (2) corporate-owned assets and (3) any business-type activities of the Corporation not included in the Housing Revenue Bond indenture or construction loans, including the Secondary Market Mortgage Purchase program. Fund net position is generally unrestricted.

Housing Revenue Bond Funds: These funds account for the proceeds from the sale of Housing Revenue Bonds, the debt service requirements of the bond indebtedness, and mortgage loans and mortgage-backed securities acquired with bond proceeds to finance the purchase of single-family residential housing as well as the construction and long-term financing of multi-family residential housing. Fund net position is restricted as to use by the terms of the Housing Revenue Bond Indenture.

Housing Development Fund: This fund accounts for construction loan proceeds for the production of both single-family and multi-family residential loans, as well as any investments made with proceeds currently not loaned. Fund net position is restricted to use within the fund by the enabling legislation that created the fund. This fund was created by the same enabling legislation as the Corporation as previously disclosed in Note A.

<u>Cash and Cash Equivalents</u>: Cash consists of cash held by depository institutions and a trustee in the Corporation's name. The Corporation's cash and cash equivalents include money market funds utilized for operations, not for investment policy purposes.

<u>Investment and Mortgage-Backed Securities</u>: Investment and mortgage-backed securities are stated at fair value, while money market funds are carried at amortized cost. Unrealized gains (losses) due to changes in the fair value of investment and mortgage-backed securities are included under the caption operating revenues in the Corporation's statement of revenues, expenses and changes in fund net position.

Historically, the Corporation securitized a large portion of its government insured housing mortgage loans into mortgage-backed securities through the Government National Mortgage Association ("GNMA"). The Corporation retains ownership of \$89,092 of the securities and retains the servicing rights to the underlying housing mortgage loans.

<u>Loans and Allowance for Loan Losses</u>: Housing mortgage loans, housing construction loans and other loans are stated at remaining principal balances, plus accrued interest, less allowance for loan losses. Housing mortgage loans held for sale are at fair value. The allowance for loan losses is established through a provision for loan losses charged to expense. Loans are charged against the allowance when management believes that the collectability of principal is unlikely. The allowance is an amount that management believes will be adequate to absorb losses on existing loans that may become uncollectible, based on evaluations of the collectability of loans and prior loan loss experience.

KENTUCKY HOUSING CORPORATION NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2020

(Dollars in thousands)

Note B--Summary of Significant Accounting Policies (Continued)

The evaluations take into consideration such factors as changes in the nature and volume of the loan portfolio, overall portfolio quality, loan guarantees, review of specific problem loans, and current economic conditions that may affect a borrower's ability to pay. Accrual of interest is discontinued on a loan when management believes, after considering the economic climate, business conditions and collection efforts, that a borrower's financial condition is such that collection of interest is doubtful.

<u>Mortgage Banking Revenue</u>: Mortgage banking revenue includes revenue derived from mortgages originated and subsequently sold, with servicing retained. The primary components are gains and losses on mortgage sales and servicing revenue.

<u>Mortgage Servicing Rights</u>: Mortgage Servicing Rights ("MSRs") are initially capitalized at fair value as separate assets when loans are sold, and servicing is retained. The corporation determines the fair value by estimating the present value of the assets' future cash flows. For purposes of evaluating and measuring impairment of capitalized mortgage servicing rights, the Corporation stratifies such rights based upon the predominant risk characteristics of the underlying loans. The Corporation determined those risk characteristics to be loan type, portfolio seasoning and interest rate.

Real Estate Owned and Related Receivables: Real estate owned arises from foreclosures or other mortgage default-related actions on properties pledged as collateral on mortgage loans. Real estate owned is recorded at the lesser of unpaid principal balance plus accrued interest on the loans as of the date the loans became real estate owned, plus subsequent expenses incurred less any insurance or other loan related payments received or fair value less costs to sell. Because a substantial majority of all such loans are guaranteed, based on the Corporation's past experience, it is anticipated that the Corporation will recover a majority of the unpaid principal balances of the loans through proceeds arising from the sale of such property or receipt of applicable guarantee proceeds.

<u>Capital Assets</u>: Capital assets are stated at cost less accumulated depreciation and are reported in the business-type activities column in the Corporation-wide statement of net position. Maintenance, repairs, and minor replacements are charged to expense as incurred; major improvements are capitalized. The cost of assets sold or retired, and the related accumulated depreciation are eliminated from the accounts and any resulting gain or loss is included in income. Depreciation is computed on the straight-line method over the estimated useful lives of the assets:

Buildings 30 to 40 years Equipment 3 to 10 years

Net Position: Net Position is displayed in three components as follows:

- Invested in Capital Assets, Net of Related Debt This consists of capital assets, net of accumulated depreciation, less the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted This consists of balances associated with activities that are legally restricted by outside
 parties or by law through constitutional provisions or enabling legislation. For the government-wide
 financial statements, net position is reported as restricted when constraints placed on net asset use
 are either: (1) externally imposed by creditors (such as debt covenants), grantors, contributors, or
 laws or regulations of other governments or (2) imposed by law through constitutional provisions
 or enabling legislation.
- Unrestricted This consists of balances that do not meet the definition of "restricted" or "invested in capital assets."

Year Ended June 30, 2020 (Dollars in thousands)

Note B--Summary of Significant Accounting Policies (Continued)

Governmental Funds Fund Balance Classification Policies and Procedures: Due to the fact that the Corporation's governmental funds account for intragovernmental revenues received under the terms of grant agreements and the related grant expenditures, all governmental fund activities are reflected as restricted; therefore, the Corporation has not adopted a written policy regarding the classification of governmental fund balance categories.

<u>Interfund Eliminations</u>: Interfund receivables and payables arising primarily from allocations of administrative charges among the appropriate funds are eliminated in the governmental and business-type activities columns of the Corporation-wide statement of net position.

<u>Debt Issuance Costs and Bond Premiums and Discounts</u>: Debt issuance costs are expensed in the year the debt is incurred. There were no debt issuance costs incurred in 2020. Bond premiums and discounts on revenue bonds are amortized by the effective interest method over the term of the related debt. Revenue bonds payable are reported net of the applicable bond premium or discount.

<u>Debt Refundings</u>: The Corporation accounts for debt refundings in accordance with GASB Statement No.63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflow of Resources and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities.*

<u>Pensions and Other Postemployment Benefits ("OPEB")</u>: For purposes of measuring the net pension and net OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the fiduciary net position of KERS and additions to/deductions from the KERS fiduciary net position have been determined on the same basis as they are reported by KERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

<u>Program Revenues</u>: Program revenues in the Corporation-wide statement of activities are reported in two categories including (1) charges for services and (2) program-specific operating grants and contributions. Charges for services include all revenues from loans, investments, servicing, financing, and program administration fees received in connection with administering the Corporation's various loan programs. Program-specific operating grants and contributions include revenues from mandatory and voluntary nonexchange transactions with other governments and organizations that are restricted for use in a particular program and interest earned on unspent grant proceeds. The Corporation's policy is to apply restricted resources first when an expense is incurred for which both restricted and unrestricted net position are available.

Revenue and Expense Recognition of Proprietary Funds: The Corporation records all revenues derived from and related expenses incurred for loans, investments, servicing, financing and program administration as operating revenues and expenses since they are generated from the Corporation's daily operations needed to carry out its statutory purpose.

<u>Origination and Commitment Fees</u>: Origination fees relating to permanently financed multi-family loans are recognized in the year of origination. Commitment fees charged to mortgage originators to reserve funds for permanently financed single-family loans are recognized in the period of exercise.

KENTUCKY HOUSING CORPORATION NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2020

(Dollars in thousands)

Note B--Summary of Significant Accounting Policies (Continued)

<u>Use of Estimates</u>: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting periods. Estimates used in the preparation of the financial statements are based on various factors including the current interest rate environment and the general strength of Kentucky's economy. Changes in the overall interest rate environment can significantly affect the carrying value of the Corporation's investments and mortgage-backed securities. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses and the fair value of investment and mortgage-backed securities. Actual results could differ from those estimates.

<u>Implementation of Accounting Standards</u>: The Corporation adopted no new accounting standards during the year.

GASB standards that are under evaluation include:

GASB Statement No. 84, Fiduciary Activities, is effective for the fiscal year ending June 30, 2021, GASB Statement No. 87, Leases, is effective for the fiscal year ending June 30, 2022, GASB Statement No. 89. Accounting for Interest Cost Incurred before the End of a Construction Period. is effective for the year ending June 30, 2022, GASB Statement No. 90, Majority Equity Interest, is effective for the fiscal year ending June 30, 2021, GASB Statement No. 91, Conduit Debt Obligations, is effective for the fiscal year ending June 30, 2023, GASB Statement No. 92, Omnibus 2020, is effective for the fiscal year ending June 30, 2022, GASB Statement No. 93, Replacement of Interbank Offered Rates, is effective for the year ending June 30, 2021, GASB Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements, is effective for the fiscal year ending June 30, 2023, GASB Statement No. 96, Subscription-Based Information Technology Arrangements, is effective for the fiscal year ending June 30, 2023, and GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32, is effective for the fiscal year ending June 30, 2022. The Corporation has not yet adopted these standards and is evaluating the impact they may have on its financial statements.

Year Ended June 30, 2020 (Dollars in thousands)

•

Note C--Cash, Cash Equivalents and Investments

Kentucky Revised Statutes authorize the Corporation to invest in obligations guaranteed by the Commonwealth of Kentucky, the United States, or their agencies, provided however, that the return on such investments shall not violate any rulings of the Internal Revenue Service regarding the investment of the proceeds of any federally tax-exempt bond issue.

<u>Cash and Cash Equivalents</u>: At June 30, 2020, the carrying amount of the Corporation's cash and cash equivalents was \$108,823 and the bank balance was \$108,086. The difference between the carrying amount and the bank balance is a result of transactions in transit. Of the \$108,086 bank balance, \$76,442 was covered by federal depository insurance and \$31,644 was collateralized. For the funds collateralized by the financial institutions, the collateral equals or exceeds at least 102% of the value of the uninsured funds on deposit as required by the Corporation's investment policies, and the collateral is held by the financial institutions or a third party in the name of the Corporation.

Cash and cash equivalents of approximately \$98,718 are restricted for government programs, payment of bond principal and interest, payment of principal and interest on mortgage-backed securities and for payment of taxes, insurance and other escrowed items on the Corporation's serviced loans. Of the above amount, \$9,607 is restricted in governmental activities and \$89,111 is restricted in business-type activities. Within the business-type activities, the restricted amounts are almost entirely in the general fund.

Investment and Mortgage-Backed Securities: At June 30, 2020 the Corporation has the following:

Investment Type	<u>Fa</u>	nir Value	Effective Duration (in Years)
U.S. government-sponsored enterprises	\$	94,853	0.51
Mortgage-backed securities		56,015	0.75
Money market funds		97,969	0.00
Total Investment and Mortgage-Backed Securities		248,837	1.26
Less amounts shown as current assets		98,368	
Noncurrent Investment and Mortgage-Backed Securities	\$	150,469	

Interest Rate Risk: In general, the Corporation's investment strategy is designed to match the life of the asset with the date of its related liability. With this strategy, investments would be expected to reach maturity with limited realized gains or losses. The Corporation's investment policy does allow trades of existing securities in circumstances where extension or contraction of maturity date or conversion from one allowable investment to another produces additional value through increased yield or capital gains. The fair value of the Corporation's investments in mortgage-backed securities is highly sensitive to volatility in interest rates.

Year Ended June 30, 2020 (Dollars in thousands)

Note C--Cash, Cash Equivalents and Investments (Continued)

<u>Credit Risk</u>: The Corporation's investment policy defines the types of investments available to the Corporation. Investments, including the underlying securities for money market funds, are held by the Corporation's trustee in the Corporation's name. The Corporation's investments are rated as follows by Moody's Investors Service at June 30, 2020:

Investment Type	Moody's <u>Rating</u>
Mortgage-backed securities	Aaa
U.S. government-sponsored enterprises	Aaa
Money market funds	Not rated

<u>Custodial Credit Risk</u>: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Corporation would not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Substantially all of the Corporation's investments are held in the name of the Corporation by a trustee.

<u>Concentration of Credit Risk</u>: The Corporation's investment policy places no limit on the amount the Corporation may invest in any one issuer. Investments in issuers exceeding 5% of the Corporation's portfolio at June 30, 2020 consist of the following:

<u>Issuer</u>	<u>Fai</u>	r Value	of Portfolio		
Dreyfus	\$	97,969	39%		
U.S. government-sponsored enterprises		94,853	38%		
GNMA		56,015	23%		

The GNMA investments consist of mortgage-backed securities, the performance of which is guaranteed by GNMA. As servicer of GNMA securities with a book value of \$7,720 as of June 30, 2020, included in the above amount, the Corporation is exposed to minimal residual risk on the underlying loans in the event, that upon default of a loan, the insurance or guarantee received is insufficient to fully reimburse the Corporation.

Year Ended June 30, 2020

(Dollars in thousands)

Note C--Cash, Cash Equivalents and Investments (Continued)

The Corporation categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Corporation has the following recurring fair value measurements as of June 30, 2020:

Fair Value Measurements Using:							
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)		Ol	Other oservable Inputs	Un	ignificant observable Inputs (Level 3)
\$	94,853 56,015	\$	-	\$	94,853 56,015	\$	-
	150,868	\$		\$	150,868	\$	
\$	97,969 248,837						
	\$	\$ 94,853 56,015 150,868 97,969	Total Quoted Active for le A (Le S 94,853 \$ 56,015	Quoted Prices in Active Markets for Identical Assets (Level 1) \$ 94,853	Quoted Prices in Active Markets for Identical Assets (Level 1) (Quoted Prices in Active Markets for Identical Assets (Level 1) Significant Other Observable Inputs (Level 2)	Quoted Prices in Active Markets for Identical Assets (Level 1) Significant Other State

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Total investments by amortized cost consist of amounts invested in overnight money market funds.

Note D--Housing Mortgage Loans

At June 30, 2020, housing mortgage loans consist of the following:

Housing Revenue Bond Funds:	
Single-family (A)	\$ 320,696
Multifamily (B)	22,906
Total Housing Revenue Bond Funds	343,602
General Funds (C)	129,319
Total Principal	472,921
Add accrued interest receivable on loans	1,240
Total Principal and Accrued Interest	474,161
Less allowance for loan losses	13,535
Net Housing Mortgage Loans	460,626
Less amount shown as current assets	 27,441
Noncurrent Housing Mortgage Loans	\$ 433,185

Year Ended June 30, 2020

(Dollars in thousands)

Note D--Housing Mortgage Loans (Continued)

Additional information related to loans includes:

- Note (A) Single-family includes \$308,321 in federally insured or guaranteed loans, \$10,807 of non-insured loans with initial loan-to-value ratios less than 90%, and \$1,568 of loans backed by private mortgage insurance.
- Note (B) Multifamily includes \$19,114 in federally insured or guaranteed loans and \$3,792 in non-insured loans.
- Note (C) General Funds include \$38,750 in federally insured or guaranteed loans and \$90,569 in non-insured loans.

Note E--Other Loan Related Activities

<u>Housing Mortgage Loans Held for Sale</u>: These loans are first mortgage loans pending sale into the secondary market and are secured by single-family residences. The fair value of these loans is determined using quoted secondary market prices. This is considered Level 2 in the fair value hierarchy.

<u>Housing Construction Loans</u>: These loans are primarily secured by first mortgages and are repayable at maturity or at the date of the sale of the property, whichever occurs first. Such loans are net of an allowance for loan losses of \$950.

Other Loans: These loans are primarily non-secured loans made to agencies, organizations, and individuals to construct or preserve affordable housing in Kentucky. Such loans are net of an allowance for loan losses of \$1,828.

Real Estate Owned and Related Receivables: This asset arises from foreclosures or other mortgage default-related actions on properties pledged as collateral on mortgage loans.

<u>Loan Commitments</u>: At June 30, 2020, the Corporation is committed to make single-family mortgage loans and housing construction loans totaling \$117,651 and \$237, respectively. The Corporation had \$117,680 in outstanding commitments to sell single-family loans at June 30, 2020.

Note F-- Loan Servicing

In addition to the GNMA mortgage-backed securities portfolios that the Corporation services for its own indenture (See Note C), the Corporation was servicing the following for other investors at June 30, 2020:

Servicing Type	Number of Loans	Amounts
GNMA mortgage-backed securities	15,339	\$ 1,630,090
Fannie Mae mortgage-backed securities	817	47,487
Fannie Mae whole loans	6,131	762,148
	22,287	\$ 2,439,725

Year Ended June 30, 2020

(Dollars in thousands)

Note F-- Loan Servicing (Continued)

Included in Fannie Mae mortgage-backed securities totals are loans totaling \$6,126 on which the Corporation has retained full default risk on the underlying loans and additional loans totaling \$9,329 on which the Corporation has retained default risk subject to a stop loss agreement with Fannie Mae. Included in Fannie Mae whole loan amounts are loans totaling approximately \$105,624 for which the Corporation has retained default risk for the twelve months following the origination date.

Servicing rights totaling \$6,179 are amortized in proportion to, and over the period of, estimated servicing income and are included in other noncurrent assets.

Note G--Capital Assets

Major classes of capital assets at June 30, 2020 and activity during the year follows:

All depreciation expense was incurred for business-type activities and was included in the administrative function category in the Corporation-wide statement of activities.

Business-Type Activities	alance July 1, 2019	Add	ditions	 rements and ositions	Ju	alance ine 30, 2020
Land	\$ 1,089	\$	-	\$ -	\$	1,089
Buildings	5,741		186	-		5,927
Equipment	3,876		271	(624)		3,523
Less accumulated depreciation	 (7,252)		(343)	 624		(6,971)
Net Capital Assets	\$ 3,454	\$	114	\$ 	\$	3,568

Note H--Lines of Credit

The Corporation's lines of credit at June 30, 2020 and activity during the year follows:

Business-Type Activities	alance July 1, 2019	Во	rrowings	payments and spositions	Ju	alance ine 30, 2020
Loan Warehousing Line of Credit 1 Loan Warehousing Line of Credit 2	\$ 4,000 25,000	\$	213,995 95,208	\$ 213,120 117,208	\$	4,875 3,000
	\$ 29,000	\$	309,203	\$ 330,328	\$	7,875

Both lines of credit are unsecured and are used for the purchase of mortgage loans pending issuance of new Housing Revenue Bonds or sale to the secondary market or to other investors, and to purchase certain FHA and RHS loans pending receipt of insurance/guarantee payments from the respective agencies. Line of Credit 2 may also be used for advances for principal and interest account shortages and tax and insurance account shortages associated with the Corporation's single-family loan servicing.

Year Ended June 30, 2020 (Dollars in thousands)

Note H--Lines of Credit (Continued)

Loan Warehousing Line of Credit 1 provides for borrowings up to \$25,000, bears interest based on one-month LIBOR rounded up to the nearest 1/8% plus 60 basis points (.85% at June 30, 2020), matures on June 30, 2021, had \$20,125 of unused credit at June 30, 2020, and contains a non-usage fee of .15% of the unused amount. Loan Warehousing Line of Credit 2 provides for borrowings up to \$65,000, bears interest based on the greater of one-month LIBOR or 50 basis points, plus 125 basis points (1.75% at June 30, 2020), matures on June 30, 2021, had \$62,000 unused credit at June 30, 2020, and contains a non-usage fee of .25% of the unused amount.

In addition to requiring timely payment of all interest and principal amounts when due, the agreements between the Corporation and its line of credit lenders have provisions requiring periodic reporting of financial information and maintenance of a minimum public debt rating, the failure to comply with which, if not timely remedied, could result in the lender calling the debt immediately due and payable.

Note I--Revenue Bonds and Other Noncurrent Liabilities

Revenue Bonds: Revenue bonds at June 30, 2020 and the activity for the year then ended consist of the following:

Unamortized premium			_	1,672	•				_	1,132	
Net Revenue Bonds			\$	416,522					\$	289,602	

As indicated in the above table, bond issues totaling \$49,810 have variable rates of interest. These rates are determined periodically by bond remarketing agents as the minimum interest rate that would result in the sale of the variable-rate bonds at a price equal to the principal amount plus accrued interest thereon not to exceed a range of 18% to 21%. Surplus balances in the Fund Net Position of the Bond Debt Service Reserve Fund totaling \$65,000 have been reserved to provide self-liquidity on these bonds, which will be utilized to retire the bonds in the event they cannot be remarketed in the capital markets.

The revenue bonds are collateralized by the underlying mortgages as well as mortgage-backed securities financed by the proceeds from the revenue bonds, and by the pledge of the principal and interest collections received from these mortgages and securities.

In addition to requiring timely payment of all interest and principal amounts when due, and the maintenance of a required minimum Bond Debt Service Reserve Fund balance, the trust documents governing the administration of the Corporation's bonds outstanding require numerous reporting and tax compliance provisions, the failure to comply with which could result in, among other things, the trustee assuming all duties with respect to bond administration from the Corporation and taking any other actions necessary to protect the interests of the bondholders.

Year Ended June 30, 2020 (Dollars in thousands)

Note I--Revenue Bonds and Other Noncurrent Liabilities (Continued)

As of June 30, 2020, aggregate debt service requirements of the Corporation's debt are as shown in the table below. These amounts assume that current interest rates on variable-rate bonds will remain the same for their term; as these rates vary, interest payments on variable-rate bonds will vary.

		Principal Payments		nterest		Total Debt
Fiscal years ending June 30,	<u></u>	ayments	Pa	yments		Service
•	¢.	15 700	æ	0.045	Φ	04 545
2021	\$	15,700	\$	8,815	\$	24,515
2022		30,270		7,909		38,179
2023		25,845		7,010		32,855
2024		22,345		6,231		28,576

Five years ending June 30,						
2026-2030		80,980		18,901		99,881
2031-2035		63,170		7,661		70,831
2036-2040		28,745		1,857		30,602
2041-2045		1,700		43		1,743
	\$	288,470	\$	63,948	\$	352,418

The Corporation has routinely exercised early redemption options and has retired various bonds prior to their scheduled maturity dates with funds available for that purpose.

Interest expense was entirely incurred in business-type activities and was included in the bond financed loan programs function and administrative function in the Corporation-wide statement of activities.

Other Noncurrent Liabilities: Other noncurrent liabilities had the following activity during the year:

Account	Balance July 1, 2019	Additions	Reductions	Balance June 30, 2020
Other noncurrent liabilities	\$ 14,162	\$ 2,385	\$ (559)	\$ 15,988

Year Ended June 30, 2020

(Dollars in thousands)

Note J--Conduit Debt Obligations

The Corporation uses its tax-exempt debt issuing authority to provide financial assistance to private-sector developers for the acquisition and rehabilitation, or the construction of multi-family housing projects serving low-to-moderate income households. The debt is collateralized by revenues generated by the properties financed and is repayable solely from payments received on the underlying mortgage loans and any specific third-party credit enhancement associated with the individual financings. Through June 30, 2020, conduit debt obligations have been issued for 55 multi-family projects totaling approximately \$657,022. The debt does not constitute a liability or a pledge of faith and credit of the Corporation and, accordingly, has not been reported in the Corporation-wide financial statements.

Note K--Defined Benefit Pension and Other Postemployment Benefits Plan - Cost Sharing - KERS

Kentucky Employees Retirement System

Plan Description - The Corporation contributes to the Kentucky Employees' Retirement System (KERS), a cost-sharing, multiple-employer defined benefit pension plan administered by the Kentucky Retirement Systems (KRS), an agency of the Commonwealth. Under the provisions of Kentucky Revised Statute Section 61.645, the Board of Trustees ("KRS Board") of KRS administers the KERS, County Employees Retirement System and State Police Retirement System. Although the assets of the systems are invested as a whole, each system's assets are used only for the payment of benefits to members of that plan, and a pro rata share of administrative costs, in accordance with the provisions of Kentucky Revised Statute Sections 16.555, 61.570, and 78.630.

KRS issues a publicly available financial report that includes audited financial statements and audited required supplementary information for KERS. The report may be obtained by writing to Kentucky Retirement Systems, Perimeter Park West, 1260 Louisville Road, Frankfort, Kentucky 40601, or it may be found at the KRS website at www.kyret.ky.gov.

Basis of Accounting: For purposes of measuring the net pension and OPEB liabilities, deferred outflow of resources and deferred inflow of resources related to pensions and OPEB, pension and OPEB expense, information about the fiduciary net position of KERS and additions to/deductions from KERS's fiduciary net position have been determined on the same basis as they are reported by KERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

<u>Pension Benefits Provided</u>: The information below summarizes the major retirement benefit provisions of the KERS-Non-Hazardous Plan ("Plan"). It is not intended to be, nor should it be interpreted as, a complete statement of all benefit provisions:

Year Ended June 30, 2020

(Dollars in thousands)

Non-Hazardous

	Tier 1 Participation Prior to 9/1/2008	Tier 2 Participation 9/1/2008 through 12/31/13	Tier 3 Participation <u>1/1/2014</u>
Benefit Formula	Final Compensation X Benefit Factor	or X Years of Service	Cash Balance Plan
Final Compensation	Average of the highest 5 fiscal years (must contain at least 48 months). Includes lump-sum compensation payments (before and at retirement).	5 complete fiscal years immediately preceding retirement; each year must contain 12 months. Lump-sum compensation payments (before and at retirement) are not to be included in creditable compensation.	No Final Compensation
Benefit Factor	1.97% or 2.0% for those retiring with service for all months between 1/1998 and 1/1999.	10 years or less = 1.10%. Greater than 10 years, but no more than 20 years = 1.30%. Greater than 20 years, but no more than 26 years = 1.50%. Greater than 26 years, but no more than 30 years = 1.75%. Additional years above 30 = 2.00% (2.00% benefit factor only applies to service earned in excess of 30 years).	No benefit factor. A life annuity can be calculated in accordance with actuarial assumptions and methods adopted by the board based on member's accumulated account balance.
Cost of Living Adjustment (COLA)	No COLA unless authorized by the retirees regardless of Tier.	Legislature. If authorized, the COLA is	s limited to 1.5%. This impacts all
Unreduced Retirement Benefit	Any age with 27 years of service. Age 65 with 48 months of service. Money purchase for age 65 with less than 48 months based on contributions and interest.	Rule of 87: Member must be at leas service must equal 87 years at retire Age 65 with 5 years of earned servicealculations.	ement to retire under this provision.
Reduced Retirement Benefit	Any age with 25 years of service. Age 55 with 5 years of service.	Age 60 with 10 years of service. Excludes purchased service (exception: refunds, omitted, free military).	No reduced retirement benefit.

<u>OPEB Benefits Provided</u>: The information below summarizes the major retirement benefit provisions of the Plan. It is not intended to be, nor should it be interpreted as, a complete statement of all benefit provisions:

Insurance Tier 1: Participation began before 7/1/2003

Benefit Eligibility: Recipient of a retirement allowance

Benefit: The percentage of member premiums paid by the retirement system are dependent on the

number of years of service. Benefits also include duty disability retirements, duty death in

service, non-duty death in service and surviving spouse of a retiree.

Insurance Tier 2: Participation began on or after 7/1/2003, but before 9/1/2008

Benefit Eligibility: Recipient of a retirement allowance with at least 120 months of service at retirement

Year Ended June 30, 2020 (Dollars in thousands)

Note K--Defined Benefit Pension and Other Postemployment Benefits Plan – Cost Sharing – KERS (Continued)

Benefit:

The system provides a monthly contribution subsidy of \$10 (Non-hazardous) and \$15 (Hazardous) for each year of earned service. The monthly contribution is increased by 1.5% each July 1. Benefits also include duty disability retirements, duty death in service and non-duty death in service.

Insurance Tier 3: Participation began on or after 9/1/2008

Benefit Eligibility: Recipient of a retirement allowance with at least 180 months of service at retirement

Benefit: Tier 3 insurance benefits are identical to Tier 2, except Tier 3 members are required to have at least 180 months of service in order to be eligible.

<u>Contributions</u>: The Corporation is required to contribute at an actuarially determined rate determined by Statute. Per Kentucky Revised Statute Section 78.545(33) normal contribution and past service contribution rates shall be determined by the KRS Board on the basis of an annual valuation on the last preceding July 1 of a new biennium. The KRS Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial bases adopted by the KRS Board.

For the fiscal years ended June 30, 2020 and 2019, The Corporation contributed 49.47% (41.06% allocated to pension and 8.41% allocated to OPEB), as set by KRS, of each employee's creditable compensation. Administrative costs of KRS are financed through employer contributions and investment earnings.

The Corporation has met 100% of the contribution funding requirement for the fiscal years ended June 30, 2020 and 2019. Total current year contributions recognized by the Plan were \$5,778 (\$4,796 related to pension and \$982 related to OPEB) for the year ended June 30, 2020. The OPEB contributions amount does not include the implicit subsidy reported in the amount of \$189.

Members whose participation began before 9/1/2008:

Contributions equal 5% of all creditable compensation. Interest paid on the members' accounts is currently 2.5%; and per statute shall not be less than 2.0%. Member is entitled to a full refund of contributions with interest.

Members whose participation began on or after 9/1/2008:

Contributions equal 6%, with 5% being credited to the member's account and 1% deposited to the KRS 401(h) Account. Interest paid on the members' accounts will be set at 2.5%. Member is entitled to a full refund of contributions and interest in their individual account, however, the 1% contributed to the insurance fund is non-refundable.

Members whose participation began on or after 1/1/2014:

Contributions equal 6%, with 5% being credited to the member's account and 1% deposited to the KRS 401(h) a ccount. Interest paid on the members' accounts will be set at 2.5%. Member is entitled to a full refund of contributions and interest in their individual account, however, the 1% contributed to

Year Ended June 30, 2020 (Dollars in thousands)

Note K--Defined Benefit Pension and Other Postemployment Benefits Plan – Cost Sharing – KERS (Continued)

the insurance fund is non-refundable. The employer contribution rate is set annually by the Board based on an actuarial valuation. Each month, when employer contributions are received, an employer pay credit is deposited to the member's account. A member's account is credited with a 4% employer pay credit. The employer pay credit represents a portion of the employer contribution.

Pension Information

<u>Total Pension Liability</u>: The total pension liability ("TPL") was determined by an actuarial valuation as of June 30, 2018, rolled-forward to the measurement date of June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

Price Inflation 2.30%

Salary increases 4.40%, average, including inflation

Payroll growth assumption 0.00%

Investment rate of return 5.25%, net of pension plan investment expense, including

inflation

The mortality table used for active members is PUB-2010 General Mortality table, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010. For healthy retired members and beneficiaries the mortality table is a system-specific, gender-specific mortality table based on mortality experience from 2013-2018, projected with ultimate rates from MP-2014 mortality improvement scale using a base year of 2019. For disabled members, the mortality table used is a PUB-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2010. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted. The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2013 – June 30, 2018.

Discount rate assumptions:

- (a) **Discount Rate**: The discount rate used to measure the total pension liability was 5.25%, which was not changed from the prior year.
- (b) **Projected Cash Flows:** The projection of cash flows used to determine the discount rate assumed the local employers and plan members would contribute the statutorily determined contribution rate of projected compensation over the remaining 24-year amortization period of the unfunded actuarial accrued liability. The actuarial determined contribution rate is adjusted to reflect the phase in of anticipated gains on actuarial value of assets over the first four years of the projection period.
- (c) Long-Term Rate of Return: The long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years for the System. The most recent analysis, performed for the period covering fiscal years 2014 through 2018 is outlined in a report dated April 18, 2019. However, the Board of KRS has the authority to review the assumptions on a more frequent basis and adopt new assumptions prior to the next scheduled experience study. The long-term expected rate of return was determined by using a building-block method in which best-estimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage.

KENTUCKY HOUSING CORPORATION NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2020

(Dollars in thousands)

Note K--Defined Benefit Pension and Other Postemployment Benefits Plan – Cost Sharing – KERS (Continued)

- (d) **Municipal Bond Rate**: The discount rate determination does not use a municipal bond rate.
- (e) **Periods of Projected Benefit Payments**: The long-term assumed rate of return was applied to all periods of projected benefit payments to determine the total pension liability.
- (f) **Assumed Asset Allocation:** The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Growth	53.50%	
US Equity	15.75%	4.30%
Non-US Equity	15.75%	4.80%
Private Equity	7.00%	6.65%
Specialty Credit/High Yield	15.00%	2.60%
Liquidity	23.50%	
Core Bonds	20.50%	1.35%
Cash	3.00%	0.20%
Diversifying Strategies	23.00%	
Real Estate	5.00%	4.85%
Opportunistic	3.00%	2.97%
Real Return	15.00%	4.10%
Total	100.00%	

The long-term expected rate of return on pension plan assets was established by the KRS Board of Trustees at 5.25% based on a blending of the factors described above.

(g) **Sensitivity Analysis:** This paragraph requires disclosure of the sensitivity of the net pension liability to changes in the discount rate. The following presents the Corporation's allocated portion of the net pension liability ("NPL") of the Plan, calculated using the discount rate of 5.25% as well as what the Corporation's allocated portion of the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (4.25%) or 1 percentage-point higher (6.25%) than the current rate:

		1%	Current	1%		
	Decrease (4.25%)		 ount Rate 5.25%)		ocrease (6.25%)	
Corporation's allocated portion of net pension liability	\$	113,896	\$ 99,354	\$	87,336	

KENTUCKY HOUSING CORPORATION NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2020

(Dollars in thousands)

Note K--Defined Benefit Pension and Other Postemployment Benefits Plan – Cost Sharing – KERS (Continued)

Employer's Portion of the Collective Net Pension Liability: The Corporation's proportionate share of the Plan's net pension liability, as indicated in the prior table, is \$99,354, or approximately 0.70%. The proportionate share from the prior year was 0.79%. The net pension liabilities were distributed based on the employers' covered payroll provided for fiscal year ending June 30, 2019.

<u>Measurement Date</u>: June 30, 2018 is the actuarial valuation date and June 30, 2019 is the measurement date upon which the total pension liability is based.

<u>Changes in Assumptions and Benefit Terms</u>: There were several assumption changes resulting from the 2018 Actuarial Experience Study including slight changes in salary increase assumptions, a change in the mortality tables to reflect updated mortality experience, and nominal changes in retirement, termination/withdrawal, and disability incidence rates. The changes resulted in a less than 5% increase in the unfunded actuarial accrued liabilities and employer contribution rate, and a less than 5% decrease in the Plan's funded ratio. There were no benefit changes since the last actuarial report.

House Bill 1, which passed during the 2019 special legislative session, allows certain employers in the KERS nonhazardous plan to elect to cease participating in the system as of June 30, 2020. Since employer's elections were unknown at the time of the actuarial valuation and the legislation was enacted after the June 30, 2019 measurement date, no adjustments were made to the Total Pension Liability to reflect this legislation.

House Bill 265, which passed during the 2018 legislative session, allowed certain employers within the KERS non-hazardous system to contribute less than the actuarially determined contribution in the 2018/2019 fiscal year. Since this is not expected to be an ongoing contribution reduction, determining the KERS non-hazardous employers' proportionate share based on the employers' actual contributions would not be reflective of the employers' long-term contribution effort. Instead, the proportionate share calculations for employers of the KERS non-hazardous system were based on the employers' covered payroll provided for fiscal year ending June 30, 2019, which would result in the same proportionate share allocation if all participating employers contributed the same contribution rate.

<u>Changes Since Measurement Date</u>: There were no changes between the measurement date of the collective net pension liability and the employer's reporting date.

<u>Pension Expense</u>: The Corporation was allocated pension expense of \$8,065 and \$15,545 related to the Plan for the years ended June 30, 2020 and June 30, 2019, respectively.

<u>Deferred Outflows and Deferred Inflows</u>: Since certain expense items are amortized over closed periods each year, the deferred portions of these items must be tracked annually. If the amounts serve to reduce pension expense they are labeled as deferred inflows. If they will increase pension expense, they are labeled deferred outflows. The amortization of these amounts is accomplished on a level dollar basis, with no interest included in the deferred amounts. Experience gains/losses and the impact of changes in actuarial assumptions, if any, are amortized over the average remaining service life of the active and inactive System members at the beginning of the fiscal year. Investment gains and losses are amortized over a fixed five-year period.

Year Ended June 30, 2020

(Dollars in thousands)

Note K--Defined Benefit Pension and Other Postemployment Benefits Plan – Cost Sharing – KERS (Continued)

Deferred inflows and outflows as of the Measurement Date include:

	Out	eferred flows of sources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$	588	\$	-	
Changes of assumptions		3,025		-	
Net differences between projected and actual earnings on plan investments Change in proportion and differences between employer contributions and		257		460	
proportionate share of contributions		544		8,042	
		4,414		8,502	
Employer contributions subsequent to the measurement date		4,796		-	
Total	\$	9,210	\$	8,502	

Deferred outflows of resources resulting from employer contributions subsequent to the measurement date of \$4,796 will be recognized as a reduction of net pension liability in the year ending June 30, 2021. The remainder of the deferred outflows and deferred inflows of resources are amortized over three to five years with remaining amortization as follows:

Year ending June 30:

2021	\$ (2,074	4)
2022	(1,943	3)
2023	(69	5)

<u>Pension Plan Fiduciary Net Position</u>: Detailed information about the pension plans' fiduciary net position is available in the separately issued pension plan financial reports.

OPEB Information

Total OPEB Liability: The total other postemployment benefits plan ("OPEB") was determined by an actuarial valuation as of June 30, 2018, rolled-forward to the measurement date of June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

Price inflation 2.30%

Salary increases 4.40%, average, including inflation

Payroll growth rate 0.00% Investment rate of return 6.25%

Healthcare trend rates:

Pre-65 Initial trend starting at 7.00% at January 1, 2020 and

gradually decreasing to an ultimate trend rate of 4.05%

over a period of 12 years.

(Continued)

KENTUCKY HOUSING CORPORATION NOTES TO FINANCIAL STATEMENTS Year Ended June 30, 2020

(Dollars in thousands)

Note K--Defined Benefit Pension and Other Postemployment Benefits Plan – Cost Sharing – KERS (Continued)

Post-65

Initial trend starting at 5.00% at January 1, 2020 and gradually decreasing to an ultimate trend rate of 4.05% over a period of 10 years.

The mortality table used for active members is PUB-2010 General Mortality table, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010. For healthy retired members and beneficiaries the mortality table is a system-specific, gender-specific mortality table based on mortality experience from 2013-2018, projected with ultimate rates from MP-2014 mortality improvement scale using a base year of 2019. For disabled members, the mortality table used is a PUB-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2010. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted. The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2013 – June 30, 2018.

Discount rate assumptions:

- (a) **Discount Rate:** The discount rate used to measure the total OPEB liability was 5.73%, which was decreased from the 5.86% discount rate used in the prior year.
- (b) **Projected Cash Flows:** The projection of cash flows used to determine the discount rate assumed the local employers and plan members would contribute the actuarially determined contribution rate of projected compensation over the remaining 24-year amortization period of the unfunded actuarial accrued liability.
- (c) Long-Term Rate of Return: The long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years for the System. The most recent analysis, performed for the period covering fiscal years 2014 through 2018 is outlined in a report dated April 18, 2019. However, the Board of KRS has the authority to review the assumptions on a more frequent basis and adopt new assumptions prior to the next scheduled experience study. The long-term expected rate of return was determined by using a building-block method in which best-estimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage.
- (d) **Municipal Bond Rate**: The discount rate determination used a municipal bond rate of 3.13% as reported in Fidelity Index's "20 Year Municipal GO AA Index" as of June 30, 2019.
- (e) Period of Projected Benefit Payments: Current assets, future contributions, and investment earnings are projected to be sufficient to pay the projected benefit payments from the retirement system. However, the cost associated with the implicit employer subsidy is not currently being included in the calculation of the system's actuarial determined contributions, and it is the actuary's understanding that any cost associated with the implicit subsidy will not be paid out of the system's trust. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy.

Year Ended June 30, 2020 (Dollars in thousands)

Note K--Defined Benefit Pension and Other Postemployment Benefits Plan – Cost Sharing – KERS (Continued)

(f) **Assumed Asset Allocations**: The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	Target	Long-Term Expected Real
Asset Class	Allocation	Rate of Return
Growth	62.50%	
US Equity	18.75%	4.30%
Non-US Equity	18.75%	4.80%
Private Equity	10.00%	6.65%
Specialty Credit/High Yield	15.00%	2.60%
Liquidity	14.50%	
Core Bonds	13.50%	1.35%
Cash	1.00%	0.20%
Diversifying Strategies	23.00%	
Real Estate	5.00%	4.85%
Opportunistic	3.00%	2.97%
Real Return	15.00%	4.10%
Total	100.00%	

The long-term expected rate of return on pension plan assets was established by the KRS Board of Trustees at 6.25% based on a blending of the factors described above.

(g) **Sensitivity Analysis**: This paragraph requires disclosure of the sensitivity of the net OPEB liability to changes in the discount rate and changes in the healthcare cost trend rate.

The following presents the Corporation's allocated portion of the net OPEB liability of the Plan, calculated using the discount rate of 5.73% as well as what the Corporation's allocated portion of the Plan's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.73%) or 1-percentage-point higher (6.73%) than the current rate for Nonhazardous:

	1% Decrease (4.73%)		Disc	Current ount Rate 5.73%)	1% Increase (6.73%)			
Corporation's allocated portion of net OPEB liability	\$	18,620	\$	15,637	\$	13,183		

Year Ended June 30, 2020 (Dollars in thousands)

Note K--Defined Benefit Pension and Other Postemployment Benefits Plan – Cost Sharing – KERS (Continued)

The following presents the Corporation's allocated portion of the net OPEB liability of the Plan, calculated using the healthcare cost trend rate of percent, as well as what the Corporation's allocated portion of the Plan's net OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate for Non-hazardous:

	Current										
		1%	He	althcare	1%						
Dec		ecrease	Cost	Trend Rate	lr	ncrease					
Corporation's allocated portion of net OPEB liability	\$	13.285	Φ.	15,637	\$	18.483					

Employer's Portion of the Collective OPEB Liability: The Corporation's proportionate share of the Plan's net OPEB liability, as indicated in the prior table, is \$15,637, or approximately 0.70% as of June 30, 2020. The net OPEB liabilities were distributed based on the employers' covered payroll provided for fiscal year ending June 30, 2019. As of June 30, 2019, the Corporation's proportionate share of the Plan's net OPEB liability was \$18,604, or approximately 0.79%.

<u>Measurement Date</u>: June 30, 2018 is the actuarial valuation date and June 30, 2019 is the measurement date upon which the total OPEB liability is based.

<u>Changes in Assumptions and Benefit Terms</u>: There were several assumption changes resulting from the 2018 Actuarial Experience Study including a change in the mortality tables to reflect updated mortality experience, and nominal changes in retirement, termination/withdrawal, and disability incidence rates. The changes resulted in an approximate 7% increase in the unfunded actuarial accrued liabilities and employer contribution rate, and a less than 5% decrease in the Plan's funded ratio. There were no benefit changes since the last actuarial report.

House Bill 1, which passed during the 2019 special legislative session, allows certain employers in the KERS nonhazardous plan to elect to cease participating in the system as of June 30, 2020. Since employer's elections were unknown at the time of the actuarial valuation and the legislation was enacted after the June 30, 2019 measurement date, no adjustments were made to the Total OPEB Liability to reflect this legislation.

House Bill 265, which passed during the 2018 legislative session, allowed certain employers within the KERS non-hazardous system to contribute less than the actuarially determined contribution in the 2018/2019 fiscal year. Since this is not expected to be an ongoing contribution reduction, determining the KERS non-hazardous employers' proportionate share based on the employers' actual contributions would not be reflective of the employers' long-term contribution effort. Instead, the proportionate share calculations for employers of the KERS non-hazardous system were based on the employers' covered payroll provided for fiscal year ending June 30, 2019, which would result in the same proportionate share allocation if all participating employers contributed the same contribution rate.

<u>Changes Since Measurement Date</u>: There were no changes between the measurement date of the collective net OPEB liability and the employer's reporting date.

Year Ended June 30, 2020

(Dollars in thousands)

Note K--Defined Benefit Pension and Other Postemployment Benefits Plan – Cost Sharing – KERS (Continued)

OPEB Expense: The Corporation was allocated OPEB expense of \$877 and \$1,858 related to the Plan for the years ended June 30, 2020 and June 30, 2019, respectively.

<u>Deferred Outflows and Deferred Inflows</u>: Since certain expense items are amortized over closed periods each year, the deferred portions of these items must be tracked annually. If the amounts serve to reduce OPEB expense they are labeled as deferred inflows. If they will increase OPEB expense they are labeled deferred outflows. The amortization of these amounts is accomplished on a level dollar basis, with no interest included in the deferred amounts. Experience gains/losses and the impact of changes in actuarial assumptions, if any, are amortized over the average remaining service life of the active and inactive System members at the beginning of the fiscal year. Investment gains and losses are amortized over a fixed five-year period. Deferred inflows and outflows as of the Measurement Date include:

	Out	eferred flows of sources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$	-	\$	2,495	
Changes of assumptions		2,052		47	
Changes in proportion and differences between employer contributions and proportionate shares of contributions		186		1,874	
Differences between expected and actual investment earnings					
on Plan investments		66		169	
		2,304		4,585	
Employer contributions subsequent to the measurement date		1,171			
Total	\$	3,475	\$	4,585	

Deferred outflows of resources resulting from employer contributions subsequent to the measurement date of \$1,171, which include the implicit subsidy reported of \$188, will be recognized as a reduction of net OPEB liability in the year ending June 30, 2021. The remainder of the deferred outflows and deferred inflows of resources are amortized over three to five years with remaining amortization as follows:

Year ending June 30:

2021 2022 2023 2024 2025 Thereafter		\$ (428) (428) (893) (532)
Total	_	\$ (2,281)

OPEB Plan Fiduciary Net Position: Detailed information about the OPEB plans' fiduciary net position is available in the separately issued OPEB plan financial reports.

Year Ended June 30, 2020 (Dollars in thousands)

Note L--Risk Management

The Corporation is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. These risks are covered by various commercial insurance policies. There have been no reductions in insurance coverage during the year ended June 30, 2020. Settlements have not exceeded insurance coverage.

Note M--Subsequent Events

The Corporation evaluated events occurring between the end of its most recent fiscal year and September 30, 2020, the date the financial statements were issued.

Note N--Contingencies

In the normal course of operations, the Corporation receives funding from federal and state government agencies. These funds are to be used for designated purposes only. For government agency grants, if the grantor's review indicates that the funds have not been used for the intended purpose, the grantor may request a refund of monies advanced or refuse to reimburse the Corporation for its disbursements. The amount of such future refunds and unreimbursed disbursements, if any, is not expected to be significant. Continuation of the Corporation's grant programs is predicated upon the grantors' satisfaction that the funds provided are being spent as intended and the grantors' intent to continue their programs.

In addition, the Corporation operates in a heavily regulated environment. The operations of the Corporation are subject to the administrative directives, rules, and regulations of federal and state legislative and regulatory agencies, including, but not limited to, HUD. Such administrative directives, rules, and regulations are subject to change by an act of Congress or an administrative change mandated by HUD. Such changes may occur with little or inadequate funding to pay for the related cost, including the additional administrative burden to comply with a change.

The COVID-19 pandemic has caused incredible challenges to the world's health and well-being and the resulting economic and social repercussions are on a scale not experienced in generations. It is unclear whether fiscal and monetary initiatives will be successful in reducing the impact sufficiently to prevent worldwide recession or depression. The Corporation has already been tasked with providing relief to many Kentuckians who have been adversely affected by the pandemic, ranging from increased rental assistance to increased homelessness prevention to loan forbearance. Although significant funding has been provided by numerous federal relief initiatives for the direct relief to those affected, it is unclear as to the impact on Corporate financial performance. It is also unknown what additional impacts to Corporation operations the pandemic and reaction to the pandemic may have, any of which may affect future financial performance.

Notes to Required Supplementary Information

Changes in Assumptions and Benefit Terms: Since the prior measurement date, the demographic and economic assumptions that affect the measurement of the total net pension liability have been updated as follows and are reflected in the valuation performed as of the June 30 of the years listed below:

2015

- The assumed investment rate of return was decreased from 7.75% to 7.50%.
- The assumed rate of inflation was reduced from 3.50% to 3.25%.
- The assumed rate of wage inflation was reduced from 1.00% to 0.75%.
- The payroll growth assumption was reduced from 4.50% to 4.00%.
- The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females).
- For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted.
- The assumed rates of Retirement, Withdrawal and Disability were updated to more accurately reflect experience.

2016:

• The assumed investment rate of return was decreased from 7.50% to 6.75%.

2017:

- The assumed investment rate of return was decreased from 6.75% to 5.25%.
- The assumed rate of inflation was reduced from 3.25% to 2.30%.
- The salary increase assumption was reduced from 4.00% to 3.05%.
- The payroll growth assumption was reduced from 4.00% to 0.00%.

2018:

No changes in assumptions

2019:

- The salary increase assumptions changed from 3.05% average, including inflation to 4.40% average, including inflation.
- The base retiree mortality tables were replaced with a KERS-specific mortality table developed using the actual mortality experienced for non-disabled retirees. The mortality tables for disabled retires and active members were updated with Public Retirement Mortality tables.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Kentucky Housing Corporation Frankfort, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities and each major fund of Kentucky Housing Corporation (the "Corporation"), a component unit of the Commonwealth of Kentucky, as of and for the year ended June 30, 2020 and the related notes to the financial statements, which collectively compromise the Corporation's basic financial statements and have issued our report thereon dated September 30, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Corporation's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Corporation's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Corporation's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
