IV.6 State Plan Hearings (Note: attach notes and transcripts to the SF-424)

Date Held Newspapers that publicized the hearings and the dates the notice ran

04/12/2022 Public Hearing was held on April 12, 2022. Transcription and audit file are attached. It was virtual and registration was advertised via Egram (3/17/2022, 3/24/2022, and 3/31/2022) and www.kyhousing.org.

IV.7 Miscellaneous

<p>Recipient Business Officer Winston Miller wmiller@kyhousing.org 502-564-7630, ext. 299</p> <p>Recipient Principal Investigator Keli Reynolds kreynolds@kyhousing.org 502 564 7630 ext: 414</p> <p><u>Personnel Expenses</u></p> <p>Personnel expenses increased for a couple of reasons. First, KHC was underpaying staff, which made replacing them nearly impossible. Plus, KHC withdrew from the state retirement plan, which decreased the fringe benefits but also made us a less appealing employer to staff trained in the network when job openings occurred, which further increased the need for higher wages (to be competitive and to retain current staff). Second, KHC reorganized our training and technical assistance division so that there are dedicated trainers and dedicated technical monitors. With the re-organization, KHC added a new position for a technical monitor so that we can fulfill a request from our subgrantee network to offer more TA in the field.</p> <p>Any KHC Personnel charging less than 100% to WAP grant will be paid by other funding sources such as but not limited to: LIHEAP or any of the 14 different funding streams managed by HCA (most of them federal).</p> <p><u>Financial Audits</u></p> <p>Financial Audit funding, identified in KHC's SF-424a Budget, will only be allocated to subgrantees who expend overall total federal funding over \$750,000.</p>

Vehicles and Equipment

During Program Year 2022 Period of Performance, KHC will be working to improve the condition of Subgrantee vehicles and equipment.

Sub-grantee Selection

Middle Kentucky Community Action Agency, serving Owsley, Lee, Wolf, and Breathitt counties, will be replaced with a new sub-grantee. While KHC works to find a new sub-grantee, TBD is a place holder for that allocation and territory. A new Sub-grantee will be selected in accordance with 10 CFR 440.15 and 2 CFR 200.1 "Subrecipient". KHC plans to open an application for funding to the CAA network to serve . If no applications or qualified CAAs submit an application, KHC will open the application to non-profits. KHC will consider splitting the territory as needed to award funds.

Policy Advisory Committee

Policy Advisory Committee (PAC) To the extent possible, Kentucky's PAC members advocate for and provide a broad representation of 'At-Risk' and 'Low-income' populations such as but not limited to the following: children, elderly, persons with disabilities, and Native Americans. The PAC consists of KHC's Housing Policy Advisory Committee (HPAC) membership. In 2021, KHC combined the two committees. HPAC absorbed the WX PAC; however, the membership of HPAC is designed by its by-laws and not all members of PAC are eligible for membership in HPAC; however, all meetings are opened and all in attendance are free to comment and share opinions. The list in the Annual File is the current list of HPAC/PAC membership.

Weatherization Ready

WX WR At-a-Glance

Description	Kentucky Housing Corporation has been administering a weatherization ready program funded through LIHEAP for a couple of years. Examples of repairs included in the current program are structural, plumbing, electrical, and roofing issues, pest infestation, or other issues KHC deems appropriate. Structural/roofing issues may be repairs in roof leaks to protect weatherization measures, minor mold remediation, repair of holes in walls, and other minor repairs to protect installed weatherization measures. The Weatherization Ready program will implement a cap of the established DOE average cost per unit (ACPU) as a cap for the weatherization ready job. Weatherization Ready job must result in weatherization job completions, with the exception of natural disasters and homeowner/renter issues that deem it necessary to "walk-away" from a job. KHC and all sub-grantees will follow WPN 22-6.
Average Cost Per Unit Cap	Cap per Unit for DOE funding is \$8,009 for the following repairs that cannot otherwise be addressed by normal/regular weatherization activities. <ul style="list-style-type: none">• Mold Remediation• Pest Infestation• Roof Repair/Replacement• Asbestos Remediation• Structure Repair• Wall Repair (interior and exterior)• Ceiling Repair• Floor repair
Measures Covered	<ul style="list-style-type: none">• Plumbing repair (including sewer/septic repair)• Exterior drainage repairs (e.g. landscaping or gutters)• Bulk Moisture Control• Electrical Upgrade or Repair

- Insulation Preparation
 - Infiltration Reduction
 - Leak Repair
 - Other (as needed to correct deferrals – must be approved by KHC)
1. Sub-grantee conducts home evaluation and determines that house is not ready for weatherization install.
 2. Sub-grantee estimates the repair costs to determine if repairs and costs fall within the guidelines of the repair program.
 3. Sub-grantee prepares approval form (WX-WR) with supporting documentation (i.e. pictures, estimates, scope of work) via wxadmin@kyhousing.org. Example: If a roof needs to be patched to install insulation, along with repair approval form, sub-grantee should submit photos, estimate with detailed work summary with measurements and materials needed.)
 4. KHC reviews, requests more info if needed, and approves/denies requests.
 5. Sub-grantees ensure work is completed prior to weatherization. Completed weatherization-ready work will be defined as repairs completed and primer/paint ready.
 6. Sub-grantees make a separate draw on the repair activity and submit with the rest of the job completion draws or submits the repair activity as an “in progress” job in Hancock software.
 7. KHC will tracks numbers of weatherization ready jobs, types of repair, and expenditure rates.

Process

Prioritization

Households that reach the top of the waiting list due to priority points but are deferred due to needed repairs will be reviewed by subgrantee for weatherization ready. Repairs will be submitted to KHC for review (see process section).

KHC currently uses Hancock for data tracking. All weatherization ready jobs will be kept in deferral status with weatherization ready measures tracked separately from regular weatherization measures. All jobs that go from weatherization ready to weatherization job completions with readiness funding will be tracked for reporting. Normal DOE reporting demographics will be tracked.

Demographics Collected:

Reporting

- Year Built
- Housing Type
- Type of Repair
- Expenditure per unit

Braiding

Braiding with other funding is allowed. Most likely will be either LIHEAP Weatherization or AHTF Home Repair. Braiding funds with DOE BIL funding is not allowable.

Subgrantee Allocation

Weatherization Ready (DOE) funding will be allocated to subgrantees based on the Kentucky Weatherization funding.

Monitoring

A sample of these jobs will be pulled for desk monitoring, which may include requests for pictures of completed work. Ten percent of weatherization ready jobs will be subject to technical monitoring.

MAJOR CHANGES TO THIS PLAN:

- The allocation formula used last year was refreshed, based on expenditure data, thus, creating a different allocation award than last year. For example, the sub-grantees change positions of largest to smallest awardees.
- Included in this plan are federal changes regarding re-weatherization dates and KHC's processes to verify re-weatherization.
- KHC added language for natural disasters and how the weatherization assistance program will respond.
- KHC added language to address Justice 40 and vehicle replacements.

AVERAGE COST PER UNIT:

Our average cost per unit is based on the DOE average per unit cost.
