

2026 KY Balance of State Continuum of Care (CoC) Renewal Project Intent to Apply Form

Instructions: Read Carefully

This form must be completed for 1) ALL currently funded CoC projects funded through the FY25 CoC Award process and 2) projects funded through the FY22 Special NOFO (SNOFO) competition intending to renew in FY2026 (calendar year 2027) for the first time. This includes projects not wishing to or allowed to renew their existing project due to local policies. A separate form must be completed for each individual project.

NOTE: The 2026 Continuum of Care (CoC) Program Local Competitive Application Guidelines are pending review by the Scoring and Ranking Committee and the KY BoS Advisory Board. Given the time constraints of the competition, KHC has designed these Intent to Apply Forms (Renewal and New) with policies anticipated to be approved by the Committee and Board. Any locally established policies presented herein are subject to change.

Please note the following local policies for the FY 2026 CoC Competition. These have been established to preserve as much permanent housing as possible in the KY BoS and to position projects that will be ranked in Tier 2 in the most strategic way possible to increase chances of being selected for funding by HUD in the national competition. It is important to understand that HUD, through the FY 2026 CoC NOFO, has established a \$1.3 billion set-aside only for new Transitional Housing (TH) and Supportive Services Only (SSO) projects that are ranked in Tier 2. Given the amount of funds available for Tier 2 projects nationally, it is extremely unlikely that any renewal projects (of any component type) will be funded if ranked in Tier 2. CoCs are limited to only 60% of our renewal amount to be placed in Tier 1. Historically, we have been allowed between 90-95% in Tier 1. Given these circumstances (limited Tier 1 space and likelihood of only NEW TH and SSO projects being funded from Tier 2), the following policies have been established:

- PSH renewal projects will be ranked in Tier 1 (unless significant performance issues are present)
- RRH renewal projects can apply as is, but RRH projects that fall into Tier 2 after local scoring and ranking must transition (through a new project application) to either a TH or SSO project (SSO-Standalone or SSO-Street Outreach) if it wishes to proceed in the competition.
- DV Bonus RRH renewal projects that fall into Tier 2 may also transition to a new DV Bonus RRH project if funds are available.
- TH, Joint TH-RRH, and SSO (stand-alone and street outreach) renewal projects must submit new project applications for either TH or SSO instead of renewal project applications and will be ranked in Tier 2. Existing TH and SSO projects can submit new project applications for the same project component (TH or SSO) or elect to switch. This means that the CoC will not be accepting renewal applications for any TH, Joint TH-RRH, or SSO projects with the exception of KHC's Housing Connector SSO project that supports projects and our system BoS-wide. Again, existing TH and SSO project types can apply as new projects for either TH or SSO. **This will make these projects more competitive in Tier 2 and can be an opportunity to restructure budgets and make improvements to your projects if needed.**

Please return this form to the KY BoS CoC inbox at kyboscoc@kyhousing.org by **5:00 p.m. ET on Friday, July 3, 2026.**
